

Jon Pickard

(BMus, hon)

Piano & Guitar lessons

KS1 & KS2

A lifelong pro musician, multi-instrumentalist and singer, I am classically trained but also very experienced in teaching pop, folk, jazz etc.

I now love to pass on the musical torch to children and adults who want to learn this amazing life skill.

! PRICES REDUCED FOR 2025/2026 !

I aim to run lessons in every full school week. We calculate the planned number of lessons from the starting point to the end of the school year, and an average monthly payment is made by Standing Order. This keeps payments lower and simpler, and makes it easier to budget. If lessons are missed we make adjustments or do 'catchup days' to compensate, subject to T&Cs

Individual lessons paid by Standing Order: £17 for 20 min, or £23 for 30 min
Add £1 per lesson if invoiced separately

Piano

Learning piano is one of the most enriching activities a person can undertake, offering benefits that extend far beyond music. Piano lessons nurture fun, creativity, discipline, and patience, improving motor skills, focus and problem-solving skills. Multiple studies show that learning music can positively impact academic performance and cognitive development. It is not called 'Enrichment' for nothing!

Duet with me (kids LOVE this!)

We play duets together right from the start. I will accompany you / your child on piano, guitar, voice and sometimes drums to fast track listening, rhythm and timing skills.

Students need their own instruments and regular home practice is important. I am happy to advise on this if help is needed.
